POWER THROUGH PARTNERSHIP

FLY CLUB INSURANCE, SIMPLIFIED

Are you currently in a flying club, or are you thinking about starting a new flying club?

Whether your club is large or small, the aircraft is leased or owned, has light sport aircraft or standard aircraft, we have a policy to fit your needs. We make it easy to manage your club's insurance program no matter how many aircraft or members are involved.

FACTORS THAT INFLUENCE RATES

Rates are influenced by many factors, but several of the most important include:

- ◆ Make and model aircraft being operated
- ◆ Insurance coverage limits needed (aircraft value and liability limits)
- ◆ Number of members per aircraft
- ◆ Ratings, experience, proficiency, and claim experience of members
- ◆ Aircraft location (hangared or tied down)
- ◆ Additional expanded coverage that may be needed to meet club requirements

Insurance rates will depend largely upon the type of pilot certificates held by members, the amount of experience each member has in the type of aircraft to be insured, and what type aircraft is being insured.

SIMPLE AND FLEXIBLE

- ◆ Liability limits up to \$1 million per occurrence and passenger liability between \$100,000 - \$250,000.
- ◆ Most deductibles range from \$250 to \$2,500. Participating carrier may have zero deductibles for members who completed the AssuredPartners Aerospace Accident Forgiveness program
- ◆ Special rates for clubs between 3 and 10 members, with flat rates available for clubs that grow beyond 10 members
- ◆ Club members as named insureds
- ◆ Baggage and hangar coverage
- ◆ Premises liability
- ◆ Emergency and unexpected landing coverage
- ◆ Products Liability: Sale of aircraft, aircraft parts, and food and beverage
- ◆ Search and rescue
- ◆ Coverage for social and special events
- ◆ Unlimited social members

WHAT INSURANCE COMPANIES NEED TO KNOW

Insurance companies ask a variety of questions regarding safety and control matters, including:

- ◆ Type of airports (length, lights, sod or hard surface)
- ◆ Type of storage facility
- ◆ Extent of supervision over flight operations (especially regarding student pilots)
- ◆ Club maintenance programs
- ◆ Club required currency, refresher courses and check rides
- ◆ The club's and an individual member's accident and claim history
